EXPERIENCE

Software Developer — March 2025 – Present
Telus (Contract) — *Edmonton, AB*
- Engineered RESTful APIs to integrate CRM and commission systems, cutting manual calculation errors by more than 85%
- Partnered with product, QA, and sales teams to define and deliver lead tracking, real-time commission dashboards, and performance metrics
- Designed scalable backend logic for commission rules, enabling real-time pay transparency for sales reps

Front End Developer — April 2024 – Sept. 2024
Raqib Technologies Inc. (Contract) — *Edmonton, AB*
- Built and maintained responsive SaaS front-ends in React + TypeScript for thousands of end users
- Translated Figma wireframes into production code, collaborating with designers and backend engineers to deliver user-centric features
- Integrated GraphQL and REST APIs, ensuring error-resilient data flows and smooth cross-tenant experiences

Web Developer & Designer — Jan. 2022 – Present
Freelance — *Edmonton, AB*
- Delivered 10+ client websites with improved SEO visibility and 30% faster load times through asset optimization and clean code
- Directed a cross-functional team of developers/designers, increasing project delivery speed by 25%
- Produced wireframes, prototypes, and mockups in Figma/Adobe XD to align client vision with technical implementation

Digital Marketing Manager — Oct. 2022 – Dec. 2023
Foosh — *Edmonton, AB*
- Drove a 200% increase in web traffic by aligning content cadence with SEO and engagement analytics
- Designed brand-consistent visual assets for ads, social campaigns, and email marketing, expanding digital reach
- Coordinated creative shoots and maintained cohesive branding across all digital platforms

PROJECTS

Telus Commission Calculator | *React, TypesScript, SupaBase* — June 2025
- Built a commission/order tracking tool enabling reps to self-verify pay, reducing support tickets related to pay disputes
- Implemented real-time DB sync + input validation for financial accuracy
- Delivered a responsive UI that improved adoption among frontline teams

Migrante Alberta | *Python, Flutter, Django,* — Jan. 2022 – April 2022
- Developed a full-stack mobile app connecting immigrants to hospitals, charities, and community resources
- Designed secure REST APIs with Django; used Agile practices and Git/Trello to manage sprints
- Conducted usability testing, improving user onboarding and adoption for a community-driven non-profit
